HOROSCOPE
by Aboudé

Think carefully! Pressures lessen, and you can see more clearly. Rather than find contentment with this lull in tension and slowness in activity keep your sights set high!

TAURUS April 21-May 21

Go ahead with what you've been looking forward to. Complete each project with the special finishing touches that say that YOU did it! Relax and think about your accomplishments.

GEMINI May 22-June 21

Don't bother with one who you know by results isn't as talented as you are, but tries to compete ... there is no competition. Make things peaceful and harmonious.

CANCER June 22-July 23

Knocking competition doesn't do your image any good at all! Say nothing rather than saying malicious things. You are high on ideas, luck and the energy to use it this week!

LEO July 24-August 23

You are well-liked by true friends regardless of any times you make mistakes. Those who profess to be your "friends" jump at the chance to point out and dwell on mistakes.

VIRGO August 24-Sept. 23

Combine assets and watch the wonderful results! You and mate can get together on a project that requires your sensible thinking and intense enthusiasm.

LIBRA Sept. 24-Oct. 23

Keep one step ahead of any and all competitors! Never let your defenses down though you may feel like giving up at least once this week! Know all the facts before making any decision.

SCORPIO Oct. 24-Nov. 22

Your need to be taken care of is only matched by your need to do the caring! This is a good time to expand your emotions to those less fortunate.

SAGITTARIUS Nov. 23-Dec. 21

Don't let yourself get so busy with furthering your career and yourself that you don't stop "to smell the roses along the way." In striving for the future, appreciate what you find.

CAPRICORN Dec. 22-Jan. 20

As this week and month begins, you don't feel very much into things . . . take it easy and don't push yourself to do anymore than is necessary for your work and peace of mind.

AQUARIUS Jan 21-Feb. 19

Don't put off what you know must be done . . . be ready to face the consequences of putting it off this long! As the week progresses a bad phase comes to light.

PISCES Feb. 20-March 20

Stop changing your mind whenever you have second thoughts or a faint doubt! Not being absolutely sure is characteristic of you . . . realize this and go ahead with things.
